| Supplier Address      | Total Hygiene Solutions  
                        | 71 Stradbroke Street  
                        | Heathwood  
                        | Queensland 4110 Australia |
| Supplier Contact Details | Phone: 1300 479 624 , email: sds@symbio.com.au |
| Emergency telephone number | Poisons Information 131126 |
| Material uses         | Chlorinated Cleaner |
| Product dilution information | Use as supplied |
| Date of issue         | 1 October 2016 |

2. Hazards identification

Classified as **DANGEROUS GOODS** by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail.

This material is **HAZARDOUS** according to Safe Work Australia’s GHS Criteria.

**Hazard Category**
- Corrosive to Metals - Category 1
- Eye Damage - Category 1
- Skin Corrosion – Category 1A

**Signal Word:** DANGER

**Hazard Statements:**
- May be corrosive to metals.
- Causes serious eye damage.
- Causes severe skin burns and eye damage.
- Contact with acids releases toxic gas.

**Precautionary Statements:**

**Prevention:**
- Keep only in original container.
- Wear protective gloves.
- Do not breathe dusts. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.

**Response:**
- Absorb spillage to prevent material damage.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor.
- IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
- IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse.
- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor. Specific treatment (see section 4 of the SDS).
Storage:
Store locked up, in a corrosion resistant container.
Store in accordance with local regulatory requirements.

Disposal: Dispose in contents/container in accordance with local regulations.

General Phrases: Keep out of reach of children.

3. Composition/information on ingredients

<table>
<thead>
<tr>

</tbody>
</table>

Ingredients, determined not to be hazardous according to Safe Work Australia’s criteria, and not dangerous according to the ADG Code, make up the product concentration to 100%.

4. First-aid measures

Eye contact: Rinse with plenty of running water. Seek medical advice if symptoms occur.
Skin contact: Remove contaminated clothing (wash before re-use). Then rinse with plenty of running water. Seek medical advice if symptoms occur.
Inhalation: Remove to fresh air. Seek medical advice if symptoms occur.
Ingestion: Do NOT induce vomiting. Rinse mouth. Give water to drink. Seek medical advice if symptoms occur.
Notes to physician: Treat symptomatically. Concentrated solution can cause corneal burns.

5. Fire-fighting measures

Extinguishing media: Not combustible, however, if material is involved in a fire use: Fine water spray, normal foam, dry agent (carbon dioxide, dry chemical powder).
Specific Hazards arising from the chemical: No specific hazard.
Special protective equipment and precautions for firefighters: Decomposes on heating emitting toxic fumes. Fire fighters to wear self-contained breathing apparatus in the event of a fire.
Hazchem Code: 2X

6. Accidental release measures

Personal precautions: For small spills ensure suitable equipment and PPE is used. Dispose of waste in accordance with local rules. For large spills the following PPE is recommended to reduce risk: Safety Glasses, Chemical Resistant Shoes & Gloves, long sleeves / trousers. Remove non-essential personnel from the area. Ensure that any alkalis or other products of incompatible classes near the spill are removed.
Environmental precautions: Contain large spills/releases using appropriate bunding or capping. Prevent entry into drainage systems, sewers and waterways.
Methods for cleaning up: Spills may be slippery when wet. Small spills use dustpan & brush, for larger spills contain with absorbent material, collect and dispose.

Note: see section 8 for personal protective equipment and section 13 for waste disposal.
7. Handling and storage

Handling: Use clean dispensing equipment, use appropriate PPE, always add product to water when diluting.

Storage: Store in a cool, dry, well ventilated place. Store away from foodstuffs. Store away from incompatible materials described in Section 10. Store in original containers whenever possible. Do not store in metal containers without prior approval. Check container compatibility before transfer. Keep containers closed when not in use - check regularly for leaks. Ensure good housekeeping in storage area.

8. Exposure controls/personal protection

Occupational exposure limits: No information available on the product itself. Values for specific hazardous ingredients are shown in section 3.

Engineering measures: Use sensible work practices that reduce operator exposure to the product. Ensure that adequate ventilation is provided, and air is moving constantly in the area of use while drum is open. Keep containers closed when not in use.

Personal Protection
- Eyes: Safety glasses/face shield.
- Hands: Chemical resistant gloves.
- Respiratory: If determined by a risk assessment an inhalation risk exists, wear a suitable mist respirator meeting the requirements of AS/NZS 1715 and AS/NZS 1716.
- Skin: Long sleeves/trousers/chemical resistant apron/chemical resistant boots.

9. Physical and chemical properties

Physical state: Powder
Colour: White
Odour: Slight
pH: Highly Alkaline
Flash point (°C): NA
Boiling point (°C): NA
Specific Gravity (g/ml @ 25°C): NA
Solubility in water: Highly soluble

10. Stability and reactivity

Reactivity: Do not mix with acids, ammonium salts or oxidising substances.
Stability: Stable under normal storage conditions.
Possibility of Hazardous Reactions: May produce heat when mixed with water. Contact with acids may liberate toxic chlorine gas. Ammonia gas may be produced if mixed with ammonium salts.
Conditions to avoid: Avoid contact with food stuffs.

11. Toxicological information

Potential acute health effects
No acute health effects expected if the product is handled in accordance with instructions provided by the manufacturer. Symptoms that may result if the product is mishandled or if overexposure occurs include:
12. Ecological information

Ecotoxicity data
- Persistence/degradability: No known significant effects
- Mobility in Soil: No known significant effects
- Other adverse effects: May be harmful to aquatic species.

13. Disposal considerations

Methods of disposal: Containers should be emptied as completely as practical before disposal. If possible, recycle containers either in-house or send to recycle company. If this is not practical, send to a commercial waste disposal site.

14. Transport information

<table>

15. Regulatory information

Classified as DANGEROUS GOODS by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail.
This material is HAZARDOUS according to Safe Work Australia’s GHS Criteria.
This material is classified as a SCHEDULE 6 POISON according to the SUSMP.
All ingredients listed on AICS.

Hazard Category
- Corrosive to Metals - Category 1
- Eye Damage - Category 1
- Skin Corrosion – Category 1A

Signal Word: DANGER

Hazard Statements:
- May be corrosive to metals.
- Causes serious eye damage.
- Causes severe skin burns and eye damage.
- Contact with acids releases toxic gas.
Precautionary Statements:

Prevention:
Keep only in original container.
Wear protective gloves.
Do not breathe dusts. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.

Response:
Absorb spillage to prevent material damage.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor.
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. Wash contaminated clothing before reuse.
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor. Specific treatment (see section 4 of the SDS).

Storage:
Store in a corrosion resistant container. Store in accordance with local regulatory requirements. Store locked up.

Disposal:
Dispose in contents/container in accordance with local regulations.

General Phrases:
Keep out of reach of children.

This Safety Data Sheet is the first issue under the direction of the PREPARATION OF SAFETY DATA SHEETS FOR HAZARDOUS CHEMICALS of December 2011. The information sourced for the preparation of this document was correct and complete at the time or writing to the best of the writer’s knowledge. The document represents the commitment to the company’s responsibilities surrounding the supply of this product, undertaken in good faith. This document should be taken as a safety guide for the product and its recommended uses but is in no way an absolute authority. Please consult the relevant legislation and regulations governing the use and storage of this type of product.
